

Form-Fix 105

The smallest Cookie Former
with cutting system

The practical Cookie Machine that that may find it's place in the smallest bakery.

The Form-Fix 105, 2 rows of cookies, manually operated, is the ideal machine for small bakeries and cafés.

The simple construction of the FF 105 makes it to an easy and indispensable but fully satisfying assistant.

The changing of pattern rollers is done without any tool within seconds.

The Form-Fix 105 is assembled out of aluminium-plates and because of that very lightweight. Table clamps and rubber feet assure the stability of the machine.

The Form-Fix 105 functions without suction belt. That's why the transport belt only gets dirty or wears out very rarely.

The cookie shapes are properly put down on the transport belt or a piece of cardboard.

The pattern roller is engraved by hand and not casted.

This roller can be engraved according to your individual ideas.

The depth of the shapes may vary from very thin, normal or thick.

The machine handles the most biscuit- and speculoos-doughs perfectly.

Talk to us about your ideas.

We are happy to be at your disposal.
