New!

Quadro Super Easy-Automat

Programmable Divider/Rounder

QSEAll/30A-SQ

This precision engineered and uniquely designed Quadro Super Easy-Automat divider/rounder offers you productivity, convenience, and safety features never before possible:

- State-of-the Art technology for faster, more efficient roll production.
- Consistent, high-quality results you can depend on.
- Produce up to 9000 pieces per hour.
- User friendly featuring digital programming capability.
- 64 storage positions that let you conveniently pre-set programs for a range of products (e.g., how hard the machine will press the dough; how many revolutions for rounding).
- Call-up the specific program, close the gate, and the machine does the rest!
- Ideal for production of Ciabatta and other soft doughs.
- Extremely safe machine --the head is fully covered.
- Extra mobility (machine is on wheels as a standard feature).

The Quadro Super Easy-Automat is an amazing machine designed to add greatly to your productivity and profits.

Call today to find out how you can put this machine to work in your operation.

ERIKA Quadro Super Easy-Automat

Programmable Divider/Rounder

TECHNICAL SPECIFICATIONS:

FEATURES:

- Three light weight, sanitary rounding plates are included
- Machine is shipped with necessary oil for rounding mechanism
- Machine has removable head feature for easy cleaning/washing of heads
- Removable knives and head assembly can be exchanged easily and quickly
- Teflon-coated sanitary cutting knives and head assembly
- Easy weight adjustment
- No oil in, or above, product zone
- Minimum maintenance required
- Rounding mechanism runs in oil bath for absolutely smooth, quiet, and long-lasting operation
- Safety gate operation
- Handles very sticky doughs

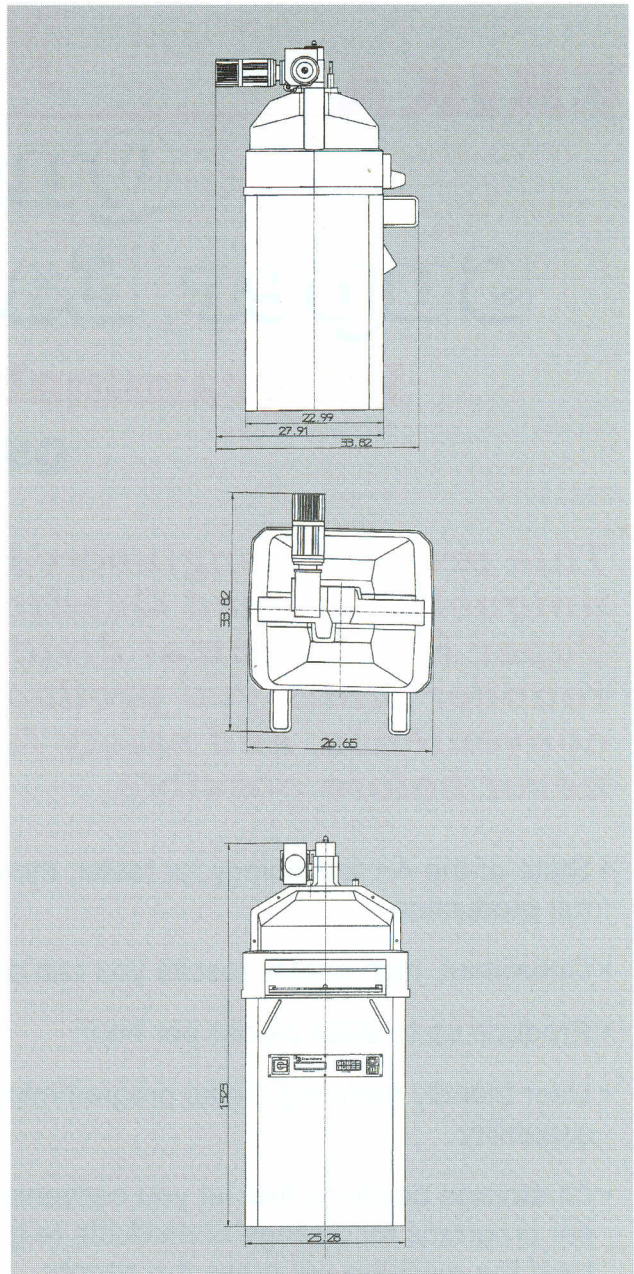

CONSTRUCTION:

- Base, gear housing and arch are made of sturdy cast iron
- Knife frame made of aluminum casting
- Finish is a lead-free enamel paint
- Head covers in front and rear are of durable thermoplastic material, impact resistant and shatter proof; they snap off and on for fast cleaning
- Rounding plate drive is via a double bearing support
- Head can be tilted for easy cleaning; dough entrapment frame comes off in seconds

ELECTRICAL:

- Motor start with built-in thermal overload protector
- Machine comes with 12 foot main cable
- Electrical Requirements: 220volts, 3 phases, 60 cycles; 5 amps

In an effort to continuously improve our products, the company reserves the right to change specifications and dimensions without notice.
