

## **RH-Green Machine Semi-Automatic Divider/Rounders**

**It only runs when you need it to!**

ERIKA Divider/Rounders still take away the laborious task of dividing and rounding dough by hand.

They still produce uniform weight and shape time after time.

Their versatility and reliability is still unmatched.

Still the world leader in Divider/Rounders for over 50 years.

But now . . .

They are going green. These more energy efficient Semi-Automatic Divider/Rounders only start running when you start pulling down the long pressing handle and stop when the handle is brought back to the “up” position. No more running the machine all day for only 30 minutes of use.

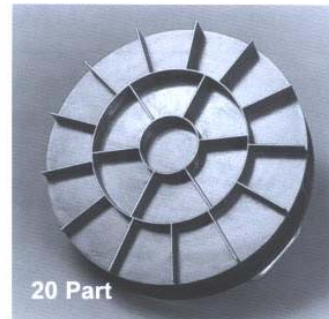

# Erika RH-Green Series

## 5-in-1, Round-Head, Semi-Autom Divider/Rounders

You can divide and round dough pieces from 1 to 21 ounces using the heads listed below. Changing heads, or removing them for washing in sink or pan washer, takes only a couple of minutes. Heads are made of light weight aluminum casting. Head and knives are teflon-coated to work with sticky doughs
