

Batter's up!

Hitting a home run is easy with Edhard Corp.'s PT-series Metering/Transfer System. Now you can meter semi-liquid products *directly* from any size mixing bowl or other container. Deposit your product into or onto anything — from a cake or cupcake pan to a production conveyor. Dispensing volume and speed are adjustable with just the touch of a button. No more lifting, pouring and scooping. Get more work done while saving time, money and labor.

Call today to speak with an Edhard sales representative and request a free catalogue.
